

FOR RELEASE AT 8:30 AM EDT, THURSDAY, JULY 25, 2024

MONTHLY ADVANCE REPORT ON DURABLE GOODS MANUFACTURERS' SHIPMENTS, INVENTORIES AND ORDERS JUNE 2024

Release Number: CB 24-117 M3-1 (24)-06

July 25, 2024 — The U.S. Census Bureau announces the June advance report on durable goods manufacturers' shipments, inventories and orders:

DURABLE GOODS – NEW ORDERS		
JUNE 2024	\$264.5 billion	-6.6%°
MAY 2024 (revised)	\$283.1 billion	+0.1%°
Next release: August 26, 2024		
Data adjusted for seasonal variation but not for price changes. °Statistical significance is not measurable for this survey. The Manufacturers' Shipments, Inventories, and Orders estimates are not based on a probability sample, so the sampling error of these estimates cannot be measured nor can the confidence intervals be computed. Source: U.S. Census Bureau, Manufacturers' Shipments, Inventories and Orders, July 25, 2024.		

New Orders

New orders for manufactured durable goods in June, down following four consecutive monthly increases, decreased \$18.6 billion or 6.6 percent to \$264.5 billion, the U.S. Census Bureau announced today. This followed a 0.1 percent May increase. Excluding transportation, new orders increased 0.5 percent. Excluding defense, new orders decreased 7.0 percent. Transportation equipment, down two of the last three months, drove the decrease, \$19.6 billion or 20.5 percent to \$75.8 billion.

Shipments

Shipments of manufactured durable goods in June, up four of the last five months, increased \$3.5 billion or 1.2 percent to \$288.1 billion. This followed a 0.4 percent May decrease. Transportation equipment, also up four of the last five months, led the increase, \$3.5 billion or 3.8 percent to \$95.3 billion.

Unfilled Orders

Unfilled orders for manufactured durable goods in June, down following forty-six consecutive monthly increases, decreased \$18.8 billion or 1.3 percent to \$1,384.3 billion. This followed a 0.2 percent May increase. Transportation equipment, down following forty-one consecutive monthly increases, drove the decrease, \$19.5 billion or 2.1 percent to \$889.8 billion.

Inventories

Inventories of manufactured durable goods in June, down following two consecutive monthly increases, decreased \$0.1 billion or virtually unchanged to \$529.4 billion. This followed a 0.2 percent May increase. Transportation equipment, down following ten consecutive monthly increases, drove the decrease, \$0.2 billion or 0.1 percent to \$172.0 billion.

Capital Goods

Nondefense new orders for capital goods in June decreased \$18.9 billion or 22.4 percent to \$65.2 billion. Shipments increased \$4.2 billion or 5.2 percent to \$84.8 billion. Unfilled orders decreased \$19.6 billion or 2.3 percent to \$838.5 billion. Inventories decreased \$0.3 billion or 0.1 percent to \$232.4 billion. Defense new orders for capital goods in June increased \$0.8 billion or 6.1 percent to \$14.6 billion. Shipments decreased \$0.5 billion or 3.3 percent to \$14.0 billion. Unfilled orders increased \$0.6 billion or 0.3 percent to \$202.5 billion. Inventories increased \$0.2 billion or 0.7 percent to \$25.7 billion.

Revised May Data

Revised seasonally adjusted May figures for all manufacturing industries were: new orders, \$583.5 billion (revised from \$583.1 billion); shipments, \$584.9 billion (revised from \$584.8 billion); unfilled orders, \$1,403.0 billion (revised from \$1,402.8 billion) and total inventories, \$859.5 billion (revised from \$860.1 billion).

Revised and more detailed estimates, plus nondurable goods data, will be published on August 2, 2024, at 10:00 a.m. EDT. The Advance Report on durable goods for July is scheduled for release on August 26, 2024, at 8:30 a.m. EDT. View the full schedule in the Economic Briefing Room:

<www.census.gov/economic-indicators/>. The full text and tables of this release can be found at <www.census.gov/m3>.

EXPLANATORY NOTES

Figures in text are adjusted for seasonality, but not for inflation. Figures on new and unfilled orders exclude data for semiconductor manufacturing.

“Virtually unchanged” indicates that the change is less than 0.05 percent for a percent increase or decrease.

The Census Bureau has reviewed this data product to ensure appropriate access, use, and disclosure avoidance protection of the confidential source data (Project No. P-6000307, Disclosure Review Board (DRB) approval number: CBDRB-FY24-0254).

Description of the survey

This report is compiled from results of the U.S. Census Bureau’s Manufacturers’ Shipments, Inventories, and Orders (M3) survey, which is a voluntary survey authorized by Title 13 of the United States Code. This survey provides statistics on a calendar-month basis for manufacturers' value of shipments, new orders (net of cancellations), end-of-month order backlog (unfilled orders), end-of-month total inventory (at current cost or market value), and inventories by stage of fabrication (materials and supplies, work-in-process, and finished goods). Data published from the M3 survey are based on a panel of approximately 5,000 reporting units that represent approximately 3,100 companies and provide an indication of month-to-month change for the Manufacturing Sector. These reporting units may be divisions of diversified large companies, large homogenous companies, or single-unit manufacturers in 92 industry categories, which are combined into 65 publication levels due to the small monthly panel size. The survey methodology assumes that the month-to-month changes of the total operations of the reporting units in the M3 panel effectively represent the month-to-month movements of all establishments that make up the category. The companies for which shipments data are currently reported or imputed in the M3 survey represent approximately 60 percent of the total value of shipments for manufacturing establishments in the 2017 Economic Census, and these companies include roughly 61 percent of the manufacturing companies with \$500 million or more in shipments in the 2017 Economic Census. The companies for which shipments data are currently reported in the M3 survey represent approximately 51 percent of the total value of shipments for manufacturing establishments in the 2017 Economic Census. Statistics based on the M3 panel differ from the results that would be obtained from a complete enumeration of all manufacturing companies. The M3 panel is not based on a probability sample; therefore, the sampling errors that are normally provided with sample surveys cannot be measured. Nonsampling errors are attributable to many sources. The use of company or divisional reports to estimate the monthly change for establishments is

one source of nonsampling error. The use of primarily large companies to represent the month-to-month movement of all companies is another potential source. Any corrections will be published in the full report. Corrections received after the full report will be released in the next month's advance report. Any revisions made later than two months will be reflected in the annual benchmark publication. Additional survey documentation can be found on our web site:

https://www.census.gov/manufacturing/m3/how_the_data_are_collected/index.html.

Notice of Revisions and Changes Due to Updated Seasonal Adjustment Models

On May 14, 2024, monthly seasonally adjusted data for Manufacturers' Shipments, Inventories, and Orders were revised for January 2012 through March 2024. There was no accompanying press release containing revised seasonally adjusted data for January through March of 2024, and historical data not seasonally adjusted were unchanged. These revisions to the historical seasonally adjusted data were based on the results of the recent annual review of the seasonal adjustment models. These results of the annual seasonal review were used to produce seasonally adjusted data from the Manufacturers' Shipments, Inventories, and Orders Survey, beginning with the April 2024 Advance Report on Durable Goods released on May 24, 2024, and the Full Report released on June 4, 2024. Please call M3 staff on (301) 763-4832 with any questions.

Special Notice:

Beginning with the release of June 2024 data on July 25, 2024, advance estimates of total manufacturing will include Petroleum and coal products shipments and inventories data, an enhancement of the publication to include an early snapshot of this industry from the monthly Manufacturers' Shipments, Inventories and Orders. These estimates will be available on a seasonally adjusted basis as well as a not seasonally adjusted basis and will be included in the Advance Total Manufacturing Estimates file on the M3 website under the "Latest Monthly Advance report on manufacturers' Shipments, Inventories and Order", [Monthly Advance Report on Durable Goods Manufacturers' Shipments Inventories and Orders - Press Releases \(census.gov\)](https://www.census.gov/manufacturing/m3/advance/2024/06/2024-06-04-advance-manufacturers-shipments-inventories-and-orders-press-releases).

^r Revised data due to late receipts and concurrent seasonal adjustment.

¹ Estimates of shipments and new orders are for the duration of the period, while estimates of unfilled orders and total inventories are for the end of the period. Not seasonally adjusted estimates of shipments and new orders include adjusted data for non-calendar reporters. Seasonally adjusted estimates include concurrent adjustments for holiday and trading-day differences, where appropriate, as well as seasonal variation, based on the results of the latest annual review of the model parameters. Estimates are not adjusted for price changes.

² Based on advance sample. Estimates of manufacturers' shipments, inventories, and orders are subject to survey error and revision. One major component of survey error is nonsampling error, which includes errors of coverage, response and nonreporting. Since the survey panel is not a probability sample, estimates of sampling error cannot be calculated. For further details on survey design, methodology, and data limitations, see <http://www.census.gov/manufacturing/m3>.

³ The Capital Goods Industries include Nondefense : small arms and ordnance; farm machinery and equipment; construction machinery; mining, oil, and gas field machinery; industrial machinery; vending, laundry, and other machinery; photographic equipment; metalworking machinery; turbines and generators; other power transmission equipment; pumps and compressors; material handling equipment; all other machinery; electronic computers; computer storage devices; other computer peripheral equipment; communications equipment; search and navigation equipment; electromedical, measuring, and control instruments; electrical equipment; other electrical equipment, appliances, and components; heavy duty trucks; aircraft; railroad rolling stock; ships and boats; office and institutional furniture; and medical equipment and supplies. Defense Capital Goods include : small arms and ordnance, communications equipment, aircraft; missiles, space vehicles, and parts, ships and boats, and search and navigation equipment.

⁴ Estimates and percent changes of shipments and inventories for the semiconductor industry are included in computers and electronic products, and all other applicable aggregate totals. Estimates and percent changes for new orders and unfilled orders exclude semiconductor industry data.

The Census Bureau has reviewed this data product to ensure appropriate access, use, and disclosure avoidance protection of the confidential source data (Project No. P-6000307, Disclosure Review Board (DRB) approval number: CBDRB-FY24-0254). Source: U.S. Census Bureau, Manufacturers' Shipments, Inventories, and Orders (M3) Survey, June Advance Report, July 25, 2024. Information on data sources and methodology can be found on our website at <www.census.gov/manufacturing/m3/how_the_data_are_collected/index.html>.

^r Revised data due to late receipts and concurrent seasonal adjustment.

² Estimates of shipments and new orders are for the duration of the period, while estimates of unfilled orders and total inventories are for the end of the period. Not seasonally adjusted estimates of shipments and new orders include adjusted data for non-calendar reporters. Seasonally adjusted estimates include concurrent adjustments for holiday and trading-day differences, where appropriate, as well as seasonal variation, based on the results of the latest annual review of the model parameters. Estimates are not adjusted for price changes.

³ Based on advance sample. Estimates of manufacturers' shipments, inventories, and orders are subject to survey error and revision. One major component of survey error is nonsampling error, which includes errors of coverage, response and nonreporting. Since the survey panel is not a probability sample, estimates of sampling error cannot be calculated. For further details on survey design, methodology, and data limitations, see <http://www.census.gov/manufacturing/m3>.

⁴ The Capital Goods Industries include Nondefense : small arms and ordnance; farm machinery and equipment; construction machinery; mining, oil, and gas field machinery; industrial machinery; vending, laundry, and other machinery; photographic equipment; metalworking machinery; turbines and generators; other power transmission equipment; pumps and compressors; material handling equipment; all other machinery; electronic computers; computer storage devices; other computer peripheral equipment; communications equipment; search and navigation equipment; electromedical, measuring, and control instruments; electrical equipment; other electrical equipment, appliances, and components; heavy duty trucks; aircraft; railroad rolling stock; ships and boats; office and institutional furniture; and medical equipment and supplies. Defense Capital Goods include : small arms and ordnance, communications equipment, aircraft; missiles, space vehicles, and parts, ships and boats, and search and navigation equipment.

⁵ Estimates and percent changes of shipments and inventories for the semiconductor industry are included in computers and electronic products, and all other applicable aggregate totals. Estimates and percent changes for new orders and unfilled orders exclude semiconductor industry data. The Census Bureau has reviewed this data product to ensure appropriate access, use, and disclosure avoidance protection of the confidential source data (Project No. P-6000307, Disclosure Review Board (DRB) approval number: CBDRB-FY24-0254).
